Vedanta Resources plc (“Vedanta”) is a London stock exchange listed FTSE 100 diversified metals and mining major with revenues in excess of USD 8 billion. The group produces aluminum, copper, zinc, lead, silver and iron ore and also commercial energy. Vedanta has operations in India, Zambia and Australia and a strong organic growth pipeline of projects. With an empowered talent pool of 30,000 employees globally, Vedanta places strong emphasis on partnering with all its stakeholders based on the core values of entrepreneurship, excellence, trust, inclusiveness and growth.

Sterlite Energy Ltd., (SEL) a group company of Vedanta, is in the project completion phase of a 2400MW (4x600MW subcritical coal fired units) Independent Power Plant in Jharsuguda, Orissa, India. SEL is inviting offers from world class O&M partners who will

- operate and maintain the entire plant in “OT” mode (Operate & Transfer) by benchmarking against world’s best plants in terms of cost, performance as well as plant staffing
- staff and train the owner’s engineers in the world’s best O & M practices.
- establish systems, SOPs, SMPs and other technical plant documentation.

SEL will deliver water & fuel inside plant boundary.

The O&M partners must have prior experience in

- operating multiple units of 500MW or more for 3 years
- advanced equipment maintenance and conditioning monitoring procedures
- operating plants that rivals the world’s best in terms of plant load factor, availability, efficiency, inventory management etc.,
- ash management and utilization methods
- adhering to strict environmental guidelines and grid discipline

Prior experience with plant equipments manufactured in China will be an added plus.

Interested parties may please send their credentials with appropriate background information stating the service provider’s prior experience in the O&M activities of plants with verifiable client list within seven days from the day of publication. Enquiries can be directed to ipp.contract@vedanta.co.in or to the following address.
